I think that would include each formation(s) in each field, the criteria for exemption, and the schedule for getting the AE documents submitted to EPA.

I will get back to you on the dates. Thanks, Michele

Basically the information will include the same set of data that is in my spreadsheet sent earlier for Cat. 1 and Cat. 2 injection. RE possible meeting dates after the 24th, how about the Tuesday or Wednesday of the week after (28th or 29th).

Jerry

Good morning Jerry,

Thanks very much for your message. We are looking forward to receiving the additional information on Districts 2,3,and 5 and Districts 1 and 4 on Jan 24 and Jan 31 respectively.

Would you kindly outline for us the information you plan to include in the workplan for those districts?

Let's schedule our next meeting for right after the Jan 24 submittal. Could you give me a few possibilities and we will check our schedules and get back to you to confirm.

Thanks!

Michele

Subject: AE Update

Good morning.

I'd like to summarize what our next steps are after our discussions yesterday:

1. We will schedule the meetings as planned with the operators in the East-side fields and Elk Hills where we have ongoing Cat. 1 injection.
2. I will give EPA a workplan for the Hydrocarbon zones extension-type injection, specifically for Districts 2,3,5 and 6 in the next 2 weeks (January 24). The bigger districts 1 and 4 will probably need more time and I'd like to target this by the end of the month (January 31).

Thanks for your inputs and suggestions.

Jerry
